### WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

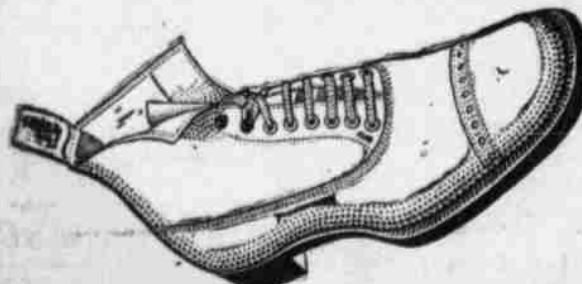

If you did what would you say of him?

It is every bit as foolish to try to get rid of dandruff and to prevent baldness by feeding the germs which cause it, with Cantharides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots. It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

## PREPARE FOR BATTLE

City Churches Organize for Civic Improvement Crusade.

### "CLOSED" VS "OPEN" TOWN

Delegates from Practically Every Church and Organization in City Meet at Congregational Church and Organize to Carry on Fight for a Clean City.

The special meeting at the Congregational church, for the purpose of organizing a federation of the various churches and societies in the city into one central body, whose purpose it will be to further the work for the betterment of the city along moral lines, although called upon very short notice, was an unqualified success in the matter of attendance, and though there was no outward manifestations of enthusiasm displayed, yet one could judge from the looks and tone of those present a determination to leave no stone unturned to prevent the old "open town" element from again coming into control of the city, and to uphold in every way possible the press, the sheriff and district attorney in their efforts to suppress these evils.

Resolutions were also passed condemning the action of certain citizens of the city who were attempting to restore the old order of things.

Among the different churches and organizations represented at the meeting were the following:

First Congregational, First Methodist, First Presbyterian, First Baptist, Bethany Lutheran, Norwegian-Danish M. E., Finnish National, Woman's Christian Temperance union; Woman's Suffragist organization, Finnish Temperance society, Total Abstinence society of upper town, Salvation Army, Peniel mission.

The meeting, which was scheduled to take place at 3 o'clock, opened promptly on time with a song, which was followed by an invocation by Rev. Lyman J. Trumbull of the First Baptist church, asking Divine guidance and help in the work to be performed.

The purpose of the meeting was then briefly stated by Rev. Luther D. Mahone of the First Congregational church, after which, on a motion made by Rev. C. A. Peterson of the Danish-Norwegian M. E. church, Rev. Mahone was selected to serve as chairman.

A motion was then made by Rev. W. H. Layson of the First Presbyterian church to the effect that "a board, consisting of one member from each church and society, be appointed to perfect plans for the federation of the different churches and societies of the city," which was adopted without discussion.

Rev. J. E. Forsyth, superintendent of the Seamen's institute of this city, was the next speaker, and in the course of an interesting talk he introduced the following resolution:

"Whereas, We as a people are under obligations to the press for the valuable service that it has rendered in the cause of the right and we are especially pleased over the attitude of the Morning Astorian, declaring in favor of law and order; therefore, be it

"Resolved, That we extend to the management of the Morning Astorian our thanks and pledge ourselves to stand by the policy of the paper;

"Resolved, Also, that our gratitude is due to the sheriff and district attorney for the splendid service they have given. We are also gratified at the success thus far made in the cause of civic righteousness, but as there needs to be a unanimity of action to hold what we have taken and to go on and possess the land that is to be taken. We urge a loyal support of the churches and the organizations to the executive board appointed by this meeting in all the recommendations that it shall make from time to time."

This was passed by an overwhelming majority.

Rev. Forsyth was followed by the Rev. C. A. Peterson of the Danish-Norwegian M. E. church in a short but interesting address in the course of which he submitted the following resolution:

"Whereas, There have been some of the well-known citizens of the city congregating from time to time discussing as to the best way to proceed to bring back to the city the evils that have been closed, and we deem this an insult to all law-abiding citizens; therefore, be it

"Resolved, That if they persist in such a policy we advise that the people of the city who believe in law and order deal with those merchants who are against these evils."

This caused considerable discussion, but was finally carried, and after agreeing to meet at the Congregational church next Friday night at 8 o'clock, for the purpose of electing officers for the permanent organization and transact such other business as might come before the organization the meeting adjourned.

After the adjournment was taken some of the prominent religious workers were interviewed and the consensus of opinion was that the organization was not to try to force religion down an unwilling throat, figuratively speaking, and that there was no intention of trying to force anyone into the churches, despite assertions to the contrary.

But, on the other hand, it was their firm determination to continue the work already begun and in every way possible protect their children and homes from the vices that go hand in hand with an "open town."

### BIG ORDER FOR LUMBER.

China in the Market to Buy 25,000,000 Feet.

Seattle, Sept. 3.—Puget Sound mills have been requested to figure on an order for 25,000,000 feet of lumber for delivery in China. The order is one of the largest ever brought to the mills of this part of the country, and in value represents about \$2,500,000.

The mills furnishing the lumber will probably have to furnish tonnage, which will have the effect of placing the orders in the hands of a few of the leading mills instead of a general distribution. The cargo price of lumber at the present time is about \$10 per thousand. Four years ago the same lumber sold for \$14 per thousand.

Local lumbermen decline to divulge the names of the parties who are placing the orders, but the report that China is in the field for 25,000,000 feet of timber is confirmed by several prominent mill men of Seattle.

### SAVE IN FREIGHT.

Roads Required to Carry Freight at Reduced Rates.

Olympia, Wash., Sept. 3.—An arrangement has been made through the efforts of Congressman Cushman by which the lumbermen of Washington may have the advantage of a cheaper freight rate on lumber sold to the government.

The Northern Pacific and the Union Pacific, being land-grant roads are required to carry government freight at a greatly reduced charge.

This, it is proposed, will be made to work for the benefit of the lumbermen by having the government contract for lumber delivered at the railway and pay for the transportation.

With this change in the government's method of purchasing lumber it can buy at a price reduced to the extent of the difference in the freight rate.

Mr. Cushman thinks this will be decidedly advantageous to the lumbermen of the Northwest.

### COST HIM LICENSE.

Inspectors Take Away License on Account of Drunkenness.

Seattle, Sept. 3.—Drunkenness on the part of officers of vessels, whether the man in question be a navigator or an engineer, during the time they are on duty, is from now on to be considered just cause for revoking the government license held by the man against whom the charge is proved, according to the stand taken by the local United States marine inspectors. The local inspectors have always taken this stand, especially in cases where flagrant breaches were brought to their attention, but recent accidents which are believed to have been due to the fact that the man directly responsible was under the influence of liquor have decided them to be even more particular than heretofore.

Edward Benson, a marine engineer employed on the Melville Dollar, is the latest to come in contact with the authority of the inspectors, his license having been revoked yesterday. Benson reported for duty in an intoxicated condition a few days before the Dollar sailed north on her last trip and was discharged. The matter was reported to Inspectors Whitney and Turner, and after a hearing and consideration of the evidence in the case it was decided to revoke the man's license permanently. Hereafter, according to the inspectors, any man who is reported to them as having reported for duty when intoxicated will be tried on the charge, and if the evidence is sufficient he will be deprived of his license.
